TWO CENTS

GREAT COMBINE OF POTTERIES

Upon Which It Is Proposed to road, near Lectonia, in July, 1902. Expend Half a Million Dollars.

PLANTS AT SEVERAL POINTS

In North, South, East and West to Capture Trade of the Country.

What promises to be the most gigantic pottery combination in the world is being projected by the firm of Benedum Bros., of Cameron, W. Va., News Review's Advocacy of Priand that it will succeed is almost a certainty.

Ever since the deal was closed for the construction of the Cameron pottery the Benedums have become more and more enthusiastic with the idea POINTS of a big concern, and there is every indication that their fondest hopes will be realized.

The Benedums are capitalists of unthis particular instance are thoroughly practical. It was thought if plants could be located in different sections of the country, the central of all centered at one point, it would be possible other words the company proposed to locate a plant in the south, one in the west and possibly two in the east, which, with the one at Cameron, would have the whole situation fairly

Following out this line of action S E. Stricklin, formerly of this city, but who projected the Cameron deal, was put on the road with all the instructions and backing he needed. The proposition made to the people of Moundsville was taken up almost immediately, and the enterprise is now well under way there. The terms of the offer made to the Moundsville people are that in addition to a site the local capitalists will furnish a loan of \$45,000 to the projectors. The latter will invest a like amount, making the total amount of cash to begin with \$90,000. The Moundsville deal was closed by Mr. Stricklin last week, and he will go to Mobile, Ala., shortly, where it is proposed to locate the southern plant.

The promoter has been in corres-Mobile, and it was thought no diffithere. The plant will be built under intention to carry out the same policy

Just as soon as the deal for the southern factory is closed the company do a candidate five cents' worth of ry and night schools, with all of the will send its promoter east, where good, and if they could, should not be advantages which they bring, were in-is proposed to interest the people of Syracuse, N. For the other eastern location Williamsport. Pa., has been suggested. The people of that thriving city have signified their willingness to encouran opportunity to invest when their The practice of paid workers congrethe strike on the terms proposed.

No effort has yet been made to secure a location in the west, but it is known that a number of cities and the proposition it has to offer. It is therefore assured that at least six plants will be the outcome of the out. EARING-DOWN pains are the worst that women know. If you are suffering from this trouble you need not be uncertain about it. The pains in the abdomen and back that feel as if heavy weights were pulling down on the nerves of the stomach are "bearing-down pains". They may not be particularly severe at present but they are growing worse. That headache which nearly drives you distracted now is caused by the terrible

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603½ North Seventh Street, Kansas City, Kansas, was coming to when she recoued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman her a strong, healthy woman again, as it has made a million other

Public opinion in Columbiana county is steadily growing in lavor of the pri- for stealing bases. mary election plan advocated by the News Review. For one thing, the Republicans of this great Republican county are strongly opposed to descending to the level of the Democratie party and making their nominations in caucuses dominated by a few men. They want to be guided by the voice rule, to which there have been but one here in 1836 and established in 1838 or two exceptions in more than two score years, that the men nominated by the Republicans of Columbiana children. county are the men elected to office. How necessary, then, in order that the best men be chosen and the whole party satisfied, that the nominations be made with care and deliberation. The proposition to trust this work to caucuses, governed by no law and misrepresenting, the sentiment of the people, is absurd, unreasonable and intolerable. We want the nominations made, just as the voting at the general election is done, in strict conformity with the law. It is the only possible way to ensure fairness. The Republican party of Columbiana county is composed of honest men, and to say tions of all objectionable features. if do so, is to insult their intelligence They cannot do it by resolving to re turn to the system of selecting delegates in caucus, but they can accom plish the reform and make it complete by holding primaries as the law provides that they should be held and punishing all who shall transgress those laws.

For one thing, the Republicans of this great Republican county are strongly opposed to descending to the level of the Democratic party and making their nominations in caucuses dominated by a few men. They want to be guided by the voice of the majority. It is a well known rule, to which there have been but one or two exceptions in more than two score years, that the men nominated by the Republicans of Columbiana county are the men elected to office. How necessary, then, in order that the best men be chosen and the whole party satisfied, that the nominations be made with care and deliberation. The proposition to trust this work to caucuses, governed by no law and misrepresenting, almost as often as truly representing, the sentiment of the people, is absurd, unreasonable and intolerable. We want the nominations made, just as the voting at the general election is done, in strict conformity with the law. It is the only possible way to ensure fairness. The Republican party of Columbiana county is composed of honest men, and to say that such men cannot rid primary elections of all objectionable features, if once they make a determined effort to do so, is to insult their intelligence. They cannot do it by resolving to re turn to the system of selecting delegates in caucus, but they can accom plish the reform and make it complete by holding primaries as the law provides that they should be held and punishing all who shall transgress those laws.

PRACTICAL TEMPERANCE

The most confirmed drunkards have been and are being reclaimed and fully cured by the Oppenheimer Treatment. Our claims are based on ten years' experience in the successful treatment of cases of alcoholism of all kinds.

Patient sleeps normally in three to five days. His system is restored to its normal condition after a few days' treatment, and all craving for whiskey or alcoholic stimulant is absolutely removed. His general health is positively improved. No hypodermics are employed. The patient's occupation is not interfered with. Residence at the Institute is optional in cases of alcoholism.

Drug addictions are treated with equal success.

POROUS PLASTERS

Are a universal remedy for Pains in the Back (so frequent in the case of women). They give instantaneous relief.

Wherever there is a pain apply a Plaster. DIRECTIONS FOR USE

For Rheumatism or Pains in Shoulders, Elbows or elsewhere, or for Sprains, Stiffness, etc., and for Aching Feet, cut plaster size and shape required and men, apply as indicated.

Rheumatism, Colds, Coughs Weak Chest, Weak Back Lumbago, Sciatica, &c., &c.

If you want the best results, the quickest and cleanest cure, use Allcock's Plasters. They are far superior to belladonna, which is the extract of deadly night shade, a virulent poison, and never should be used except by direction of a physician. Allcock's Plasters contain no poisons. They cure by absorption. Absolutely curative, perfectly harmless. Read letter from Prof. Henry A. Mott, the eminent chemist.

"My investigation of ALLCOCK'S POROUS PLASTER shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."

### **GREAT COMBINE** OF POTTERIES

Upon Which It Is Proposed to road, near Lectonia, in July, 1902. Expend Half a Million Dollars.

PLANTS AT SEVERAL POINTS

In North, South, East and West to Capture Trade of the Country.

VERY AMBITIOUS PROJECT

What promises to be the most gigantic pottery combination in the world is being projected by the firm of Benedum Bros., of Cameron, W. Va., and that it will succeed is almost a cer

Ever since the deal was closed for the construction of the Cameron pottery the Benedums have become more and more enthusiastic with the idea POINTS of a big concern, and there is every indication that their fondest hopes will be realized.

this particular instance are thoroughly practical. It was thought if plants could be located in different sections of the country, the central of all centered at one point, it would be possible for the concern to control a fair share of the patronage in every locality. In other words the company proposed to locate a plant in the south, one in the west and possibly two in the east, which, with the one at Cameron would have the whole situation fairly

Following out this line of action S. E. Stricklin, formerly of this city, but who projected the Cameron deal, was put on the road with all the instructions and backing he needed. The proposition made to the people of Moundsville was taken up almost immediately, and the enterprise is now well under way there. The terms of the offer made to the Moundsville people are that in addition to a site the local capitalists will furnish a loan of \$45,000 to the projectors. The latter will invest a like amount, making the total amount of cash to begin with \$90,000. The Moundsville deal was he will go to Mobile, Ala., shortly, where it is proposed to locate the southern plant.

The promoter has been in correspondence with certain capitalists of Mobile and it was thought no difficulty will be encountered in locating there. The plant will be built under the same terms and conditions that govern at Moundsville, and it is the intention to carry out the same policy in other localities where the company will endeavor to build pottery plants.

Just as soon as the deal for the southern factory is closed the company do a candidate five cents' worth of ry and night schools, with all of the Elizabeth McMillan has been appoint out to call help and during her abwill send its promoter east, where they already have an eye on two good towns. For the most easterly plant it is proposed to interest the people of Syracuse, N. Y. The industry has already gained a foothold there, and it is thought less trouble will be experienced in explaining the details of the plan to interested capitalists.

For the other eastern location Williamsport. Pa., has been suggested. The people of that thriving city have signified their willingness to encouran opportunity to invest when their The practice of paid workers congrethe strike on the terms proposed.

time comes. No effort has yet been made to secure a location in the west, but it is known that a number of cities and towns, any of which would be satisfactory to the company, would jump at the proposition it has to offer. It is therefore assured that at least six plants will be the outcome of the scheme when it has had time to work out. The magnitude of the enterprise can be understood when it is known that an aggregate of over half a million dollars will be expended in carry-

PRESIDENT LOUBET passed in review its chief dismounted and paid homage to the president of France, who distributed decorations to the leaders. After the review came an exhibition of sports. There were feats of horsemanship and much burning of gunpowder, the exhibition ending by a charge of all the native cavalry, which wheeled across the plain and charged toward the station occupied by the president, pulling up their horses within 300 yards of his position. A mimic combat followed representing the attack upon and capture of a caravan by a desert tribe. The ceremonies were brought to conclusion by a grand "diffa," or Arab

Public opinion in Columbiana county is steadily growing in lavor of the pri- for stealing bases. mary election plan advocated by the News Review. For one thing, the Republicans of this great Republican county are strongly opposed to descending to the level of the Democrat-They want to be guided by the voice of the majority. It is a well known by the Republicans of Columbiana children. county are the men elected to office How necessary, then, in order that the best men be chosen and the whole party satisfied, that the nominations be made with care and deliberation. The proposition to trust this work to caucuses, governed by no law and misrepresenting, almost as often as truly representing, the sentiment of the people, is absurd, unreasonable and intolerable. We want the nominations made, just as the voting at the general election is done, in strict conformity with the law. It is the only possible way to ensure fairness. The Republican party of Columbiana county is composed of honest men, and to say that such men cannot rid primary elections of all objectionable features, if once they make a determined effort to do so, is to insult their intelligence They cannot do it by resolving to re turn to the system of selecting dele-

### PRACTICAL TEMPERANCE

The most confirmed drunkards have been and are being reclaimed and fully cured by the Oppenheimer Treatment. Our claims are based on ten years' experience in the successful treatment of cases of alcoholism of all kinds.

Patient sleeps normally in three to five days. His system is restored to its normal condition after a few days' treatment, and all craving for whiskey or alcoholic stimulant is absolutely removed. His general health is positively improved. No hypodermics are employed. The patient's occupation is not interfered with. Residence at the Institute is optional in cases of alcoholism.

Drug addictions are treated with equal success.

## KNIGHTS' BANQUET POROUS PLASTERS

Are a universal remedy for Pains in the Back (so frequent in the case of women). They give instantaneous relief. Wherever there is a pain apply a Plaster.

Rheumatism, Colds, Coughs Weak Chest, Weak Back Lumbago, Sciatica, &c., &c.

If you want the best results, the quickest and cleanest cure, use Allcock's Plasters. They are far superior to belladonna, which is the extract of deadly night shade, a virulent poison, and never should be used except by direction of a physician. Allcock's Plasters contain no poisons. They cure by absorption. Absolutely curative, perfectly harmless. Read letter from Prof. Henry A. Mott, the eminent chemist.

"My investigation of Allcock's Porous Plaster shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."
